

ModelHandle::remove

ModelHandle::remove

Modelimpl::remove

```
graph LR; A[ModelHandle::remove] --> C[Modelimpl::remove]; B[ModelHandle::remove] --> C;
```

The diagram illustrates a mapping or delegation of the `remove` method. On the left, there are two separate boxes, each labeled `ModelHandle::remove`. Blue arrows point from each of these boxes to a single box on the right labeled `Modelimpl::remove`. The `Modelimpl::remove` box is shaded gray, while the `ModelHandle::remove` boxes are white with black borders.
