

Modelimpl::createModel

```
graph LR; A[Modelimpl::createModel] --> B[Modelimpl::Modelimpl]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'Modelimpl::createModel'. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text 'Modelimpl::Modelimpl'.
